

# MaHIMA Coding Series Agenda

## **Session 1: Wednesday, December 11, 2024, at 12pm- 1pm EST**

**MaHIMA Webinar - CPT Updates presented by Oby Egbunike CCS-P, CPC, COC, CRC, CPC-I**

### **Title: CPT Updates for FY2025**

Summary: As we approach the end of the year, get ready for the 2025 CPT code set changes that will become effective 01/01/2025. Now is the time to begin to familiarize yourself with the changes to be sure that you are ready to educate the providers and update your EHR.

#### **Objectives:**

- To understand the 2025 CPT changes
- Get the charge master ready for 01/01/2025
- Educate the providers on the 2025 changes

## **Session 2: Wednesday, January 15, 2025, at 12pm- 1pm EST**

**MaHIMA Webinar - Profee; E/M Coding, Modifier 25 (Part 1) presented by Oby Egbunike CCS-P, CPC, COC, CRC, CPC-I**

### **Title: When do I apply modifier 25 to an E/M**

Summary: With 2021 E/M update, history and physical as well as examination is no longer a driver to select a level of E/M. What is the documentation requirement that will justify an E/M code to be significant, separately identifiable service in addition to a procedure? Prior to 2021, a provider's sufficient amount of data in history and physical exam in the documentation can easily support a separate identifiable E/M service. Let me clarify this new guide with Modifier 25

#### **Objectives:**

- Understanding the term " significant, separately identifiable service "
- Appropriate use of Modifier 25
- Educate the providers on the documentation requirements.

## **Session 3: Wednesday, January 29, 2025, at 12pm - 1pm EST**

**MaHIMA Webinar - Profee; E/M Coding, Modifier 25 (Part 2) presented by Oby Egbunike CCS-P, CPC, COC, CRC, CPC-I**

### **Title: Use of Modifier 25 for Specialties**

Summary: What is the documentation requirement that will justify an E/M code to be significant, separately identifiable service in addition to a procedure performed in some specialties? Prior to 2021, a provider's sufficient amount of data in history and physical exam in the documentation can easily support a separate identifiable E/M service. Let us clarify the requirements for Primary care, Ophthalmology, Otolaryngology, Orthopedic, Colorectal and Dermatology

#### **Objectives:**

- Appropriate use of Modifier 25
- Inappropriate use of Modifier
- Educate the providers on the documentation requirements.
